All are Cordially Invited

ABOUT THE FDP

The 5-Day Online Faculty Development Programme on “**Bridging Industry Needs and Food Science Innovations for Future Food Systems**” brings together academic and industry experts to share contemporary knowledge, practical experiences and emerging perspectives in food science and technology. The programme covers food and nutrition security, career opportunities, research and IPR, consumer-centric innovation, food business, and scientific communication.

FDP OBJECTIVES

The FDP aims to:

- Bridge the gap between academia and the food industry.
- Provide insights into emerging trends, innovations and industry requirements.
- Promote research, innovation and industry-academia collaboration.
- Enhance awareness of career opportunities and future prospects in food science and technology.
- Encourage sustainable and future-ready approaches to food systems.

EXPECTED OUTCOMES

Participants will be able to:

- 1 Understand emerging trends and innovations in food science and technology.
- 2 Recognize current industry requirements and career opportunities in the food sector.
- 3 Explore research, innovation and IPR opportunities.
- 4 Understand consumer-centric approaches to food product innovation and business.
- 5 Strengthen scientific communication and research dissemination skills.
- 6 Develop perspectives on sustainable and future-ready food systems.
