About Us – Maa Vindhyavashini College of Education Hazaribag

Maa Vindhyavashini College of Education is committed to preparing competent, ethical, and socially responsible teachers through quality teacher education. Approved by the **National Council for Teacher Education (NCTE)** and affiliated with **Vinoba Bhave University, Jharkhand**, the college provides a conducive learning environment on its eco-friendly campus at Karamtand, NH-33. The institution emphasizes academic excellence, professional competence, personality development, and moral values to nurture future educators capable of meeting the challenges of modern education. Its mission is to develop dedicated teachers who contribute to nation-building by inspiring young minds and promoting intellectual, social, and cultural growth in society. The college also encourages innovation, inclusive education, leadership, research-oriented learning, and community engagement, ensuring that every graduate becomes a skilled, compassionate, and responsible educator committed to lifelong learning and the holistic development of future generations. Through modern teaching methodologies, value-based education, practical training, and continuous professional development, the institution strives to produce globally competent teachers with a strong commitment to excellence and service.

About Us – Sanmati Education & Research Foundation of India

Sanmati Education & Research Foundation of India is a social, educational, and research-oriented organization committed to promoting holistic social development through education, innovation, research, and welfare initiatives. Guided by the values of wisdom, positive thinking, and right guidance, the foundation works to spread knowledge through educational programs, seminars, workshops, conferences, book publications, and skill development activities. It focuses on empowering underprivileged communities, women, children, senior citizens, and differently abled individuals while promoting equality, human rights, and inclusive growth. Through research, vocational training, recognition of excellence, and community welfare efforts, the foundation aims to build an educated, empowered, and socially responsible nation.

About Us – Seminar

India's rich and diverse knowledge traditions, rooted in its ancient civilization, constitute an important part of global intellectual heritage. The Indian Knowledge System (IKS) includes disciplines such as Philosophy, Literature, Law, Medicine, Yoga, Mathematics, Arts, Sciences, and Astronomy, which have significantly influenced both Indian society and world thought. In the contemporary era, there is growing interest in revisiting and revitalizing these traditional systems to understand their relevance in addressing present-day educational and societal challenges. Interdisciplinary seminars provide an important platform for scholars, researchers, academicians, and students to exchange ideas and promote innovative research. In this context, the one-day National Seminar on **"NEP2020: Integrating Indian Knowledge Systems and Artificial Intelligence in Education"** aims to explore the historical foundations, contemporary significance, and future possibilities of IKS while aligning traditional wisdom with the objectives of NEP 2020 and fostering meaningful academic dialogue for sustainable and future-oriented development.
